

# ***FUN NIGHT IDEAS***

## *Fabulous Flyers Night*

---

### **Basic Overview:**

On Fabulous Flyers Night, the children are encouraged to make a paper airplane and bring it with them to Expeditions. The kids are welcome to check out books or look on the internet at home to find the best designs for their planes. During opening time (or at some point in the night) have a competition to see whose plane will fly the straightest and farthest and also have some or all of your leaders judge the children's planes as to which one has the best color and design.

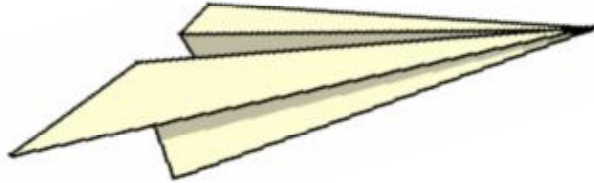

### **Additional Ideas:**

None.

### **Reminder Flyer:**

See the flyer on the next page.

Remember, next week is...

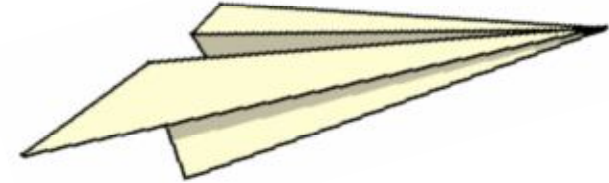

## **FABULOUS FLYERS NIGHT**

Make a paper airplane and bring it with you next week to earn points for your class. A special prize will be given for best looking plane (design and color) and for the plane that goes the straightest and farthest when we fly them in opening time!
