

# FUN NIGHT IDEAS

## *Picture This Night*

---

### **Basic Overview:**

How well do you really know your church building? This fun night is designed to send you kids and leaders on an exciting photo scavenger hunt around the church in search of various items. The goal is to find various objects and items around the church property and take a picture of your group standing next to them. Leaders should use their own cell phones to take pictures of the kids. The pictures can be emailed to you for later use (like an awards ceremony etc.) and then the leaders can delete them once the night is done (however, don't be too quick to delete them as you may need them to settle a tie score). You can find the items in any order you choose.

A couple of rules that everyone will need to follow: (1) Do not go into any room with an adult, teens, or other children's classes in them. We do not want to disrupt other services. (2) Ensure that your group stays together at all times. (3) Everyone on your team has to be in the photo for it to count (except for the leader taking the picture of course). (4) No one should go outside of the building for any reason (use caution in adding items to your list that are outside of the building). (5) Do not go into desks or drawers. Please put everything back once you are done taking a picture with it. Do not leave a mess behind.

You may be surprised just how little you know about your church building! We have included a copy of the scavenger hunt list we created to give you some ideas of items that the kids can search for. You can alter the one that is included in the Microsoft Word copy of the flyer. There are probably other items at your church as well. Grab a note pad and pen and take a walk around your church and see what you can find!

### **Additional Ideas:**

None.

### **Reminder Flyer:**
